

## **Abridged Summary of Dungeness Crab Task Force (DCTF) Votes April 22-23, 2014 DCTF meeting**

This document provides a summary of Action Items and associated votes taken by the DCTF at its April 22-23, 2014 meeting in Ukiah, California. Any vote marked as “approved” will be forwarded as a recommendation to the Tri-State Dungeness Crab Committee, the Fish and Game Commission (Commission), and Department of Fish and Wildlife (CDFW) and included in their January 2015 report to the Legislature, CDFW, and the Commission.

The following voting protocol, described in the DCTF Charter, was used to conduct straw polls and final voting:

**Thumbs Down:** I do not agree with the proposal. I feel the need to block its adoption and propose an alternative.

**Thumbs Sideways:** I can accept the proposal although I do not necessarily support it.

**Thumbs Up:** I think this proposal is the best choice of the options available to us.

**Abstention:** At times, a pending decision may be infeasible for a Member to weigh in on. Examples could include but not be limited to: a Member cannot get a consensus of his/her constituents and therefore cannot offer a proposal or opinion; and other similar conditions.

### **DCTF Votes**

The recommendations below represent agreements of the DCTF members (per voting protocols defined in the DCTF Charter); however, in some cases they are not the *verbatim* language from when the votes were taken. Because of the iterative nature of the conversations at DCTF meetings, the language of some recommendations has been adjusted to improve clarity. The verbatim language from the meeting is available on the DCTF webpage as part of the April 22-23 DCTF meeting summary for reference. Some recommendations are grouped together for clarity. Explanatory notes are provided below recommendations, when necessary.

**ACTION:** *Consideration and possible adoption of recommendations pertaining to Commercial Passenger Fishing Vessels (CPFVs) and the Dungeness crab sport fishery.*

**APPROVED:** Per the Commission’s direction, the DCTF has discussed the Coastside Fishing Club’s proposal (dated October 9, 2013). The DCTF feels strongly that these issues need to be vetted through and decided on by the Commission with input from CDFW and members of the recreational fishing fleet.

The DCTF agrees that there should be a uniform bag limit and minimum size for the recreational fishery throughout California. However, at this time, the DCTF agrees that the Commission should decide the details of these issues with input from CDFW and members of the recreational fleet.

The DCTF looks forward to discussing future recreational fishery issues.

**ACTION:** Consideration and possible adoption of Dungeness crab fishery management measures or policy statements, including season opener dates, changes to commercial fishing regulations, and future data needs.

**APPROVED:** The DCTF has discussed the four (4) topics directed to it by the Tri-State Committee. The DCTF agrees that the topics require continued discussion with their constituents. A formal recommendation on all four (4) topics will be submitted to the Tri-State Dungeness Crab Committee following the next DCTF meeting in fall 2014. In the meantime, the DCTF will continue to explore the following management options:

- Include District 10 in the Tri-State Dungeness Crab Committee and move the Tri-State line to Mexican Border.
- Maintain the November 15<sup>th</sup> opener in District 10.
- Implement a 15-day fair start provision for District 10, except during a soft-shell delay, at which point the current 30-day fair-start would remain in place.
- Explore an alternative northern opener including, but not limited to, December 7<sup>th</sup>, 10<sup>th</sup>, 15<sup>th</sup>, or January 1<sup>st</sup>.
- Revisit crab quality testing protocols including:
  - Consider and potentially re-designate the dates on which California will perform the first crab quality test(s) for the northern and central California (if District 10 is included in the Committee) season openers.
  - Consider allowing flexibility in the duration between each round of crab quality testing such that each successive round of testing may take place inside or outside 10-day increments.

The DCTF would appreciate feedback from the Committee on the issues above to inform the DCTF's continued discussion.
