

Jim Anderson (Half Moon Bay DCTF Representative) would like the following email correspondence, concerning the status of the Dungeness crab fishery loan, shared with the DCTF prior to the February 17-18, 2010 DCTF meeting in Ukiah.

**From:** Michael A Sturtevant <>  
**Date:** February 4, 2010 8:05:55 AM PST  
**To:** Jim Anderson <>  
**Subject: Re: CA dungeness crab loan**

Hi Jim,

Sorry for the delayed response as I was in Seattle and Juneau last week. We don't have a report available to share with the public but I can provide some information. All the following is current as of 1/13/10.

For California Dungeness crab we have received total payments of \$1,302,180.02 (including \$412,334.60 towards principal and \$889,845.42 for interest) to repay the original \$2,334,334.20 loan. The remaining loan balance is \$1,921,999.60 with an additional \$17,553.86 of interest outstanding.

For Pacific Coast groundfish we have received total payments of \$9,164,720.39. All of this amount has paid interest outstanding which still remains at \$2,736,515.32 leaving the original loan balance of \$28,428,718.88.

For California Pink Shrimp we have received total payments of \$105,341.27. All of this amount has paid interest outstanding which still remains at \$176,774.10 leaving the original loan balance of \$674,202.18.

Each of the other loans for fee-share fisheries in Oregon and Washington Dungeness crab and Pink Shrimp are in situations similar to CA Dungeness crab - payments have been going to both principal and interest.

Hope this helps your meeting.

Mike

Hello Mike,

Thank you for your help today on understanding the state of our California Dungeness Crab Buy Back Loan.

We have a California Dungeness Crab Task Force meeting this next month, and we were interested in knowing where we stand with the Buy Back Crab Loan? If you would send us a report on what has been paid, toward interest and principal on our loan to date, it would be truly helpful.

In our Crab representation for the task force, we have fishermen from California, Oregon, & Washington. A number of fishermen fish groundfish, crab & shrimp, would it be too much to ask for the report in each of these fisheries? This would stop the dock talk about where we stand with these loans!!

Thank you for all your help,

Jim Anderson
