

**California Dungeness Crab Task Force**  
**List of Sunsetting Fish and Game Code Sections**  
*Updated October 2017*

The following is a list of Fish and Game Code sections that will be sunsetting in 2019 and an outline of where they are anticipated to be discussed<sup>1</sup> during the October 16-18, 2017 DCTF meeting ([here](#)). There are some sunsetting code sections that are not anticipated to be addressed, including, but not limited to sections 8280.2, 8280.4, and 8280.6. The DCTF may discuss these items during agenda item 17 or may recommend they be reauthorized or sunset absent a thorough DCTF discussion. This document is intended to support the conversations on October 16-18 as well as help DCTF Members prepare for the discussion. All code language is [here](#) and [here](#).

**Monday, October 16, 2017**

- Agenda item 2 is anticipated to address the following codes:
  - 8276.5- Dungeness Crab Task Force
  
- Agenda item 3 will introduce all sunsetting Fish and Game code sections and discuss a process for reauthorizing code sections with or without DCTF input, identification of code sections that require clarification, amendments, or deletion, and recommendations to address identified needs. Anticipate diving deeper to seek resolution on the following codes:
  - 8276.2- Crab Quality control testing/soft-shell delay procedures
  - 8280.1- Dungeness crab Vessel Permit Limited Entry Qualifications
